Sir, Sir...
Sir, Vroom, stop

Huh?
Somebody is hitchhiking.

Aha.
I think standing in a place like this for a long time doesn't solve anything.

Now we're giving people rides.

Wow, thank you.

Where are you going?

I'm going to Goo Moon So, if you can take me to a place nearby, that would be great.

I took a bus from the terminal and I thought that it was going in the right direction, but I got off by myself, and I got off real lost.
Ah, yes...
If you rode that bus it would have come back sooner than this

Are you going to see Goo Moon So?
No, I'm going to see the fossil tree exhibition museum near Goo Moon So.

Fossil?

Do you know about a place like that?

It was in the tourist guide for Tae Baek city
Ah, that could be a tourist spot.
According to my research, it sounds like a tourist spot

There is there a fossil there like the one that we excavated?
The things we excavated are not there. There are some other stuff

Ah, do you handle things like fossils research?
He's a doctor who studies fossils.

You study them? Oh, that's good.
I just came here for some research, can I ask you some questions?

Yes. Ah...it doesn't matter.
When you say that this is research, are you a reporter?
No, no. I'm not a reporter, but I am a writer.

I wanted to do some research for a script and I came to Tae Baek.
Rustle

Among the spectrum around the report, there is a term called the "Whisper mind".

This story has been in my home for a long time and I found out that it's from Tae Baek.

Silk Peang

So I wanted to make a story and come to the place of its origin without any plans...

And now I'm meeting a doctor who studied like you, she is a person who controls dreams. Something clever is helping me.
No, look...

I study dreams so I don't know much about cracks and removals. I can only tell you stuff that I know about.

He's not much help in doctor.
Ah.
This and that are completely different.

We'll give you a ride to that exhibition museum. Let's go together.

Huh? If you can do that, thank you
Yes, let's go We can see the exhibition museum as well

Uuuu...

Ah...cut! Make pictures inside the museum!
I think it's okay I'm not sure though

Oh.

Click

Is the trilobite really that big?

There are only big ones here. The ones that I excavate are the small ones.

Why are excavating ones that can't really be seen when lots are once as big as your palm?

We can sell these for lots of money.
It'll be more expensive than my stuff.

Haven't we excavated stuff like this before? Why don't we put them in museums?

To be continued…
